Enhanced Listings in Referral Network

New Features

1

BRING YOUR OWN DEVICE

Empowering patients to conveniently review and choose their healthcare journey through personal devices, fostering greater autonomy and engagement in their care.

2

ANALYTICS UPGRADE

Delivering informed decision-making for healthcare stakeholders through dynamic charts and dashboard insights.

3

SHARED REFERRAL FOLDERS

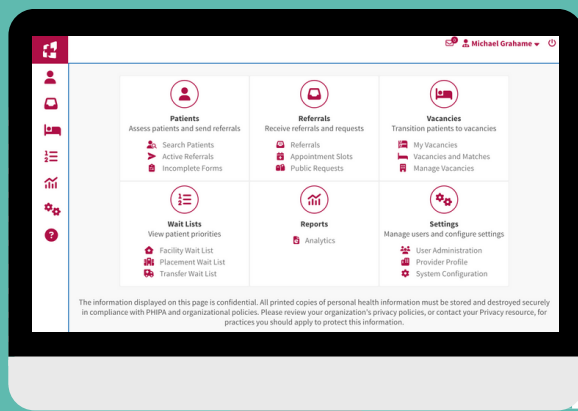

Enables seamless collaboration and streamlined sharing of referral information among team members, enhancing efficiency and communication within the workflow.

4

VERSION 13 COMING SOON

Introduces a modernized user interface (UI) and revamped menu, enhancing user experience while navigating the platform.

Key Achievements

CANADA

Primary Care Integration

OceanMD Integration facilitates seamless access for GPs to directly refer patients to services.

35% Increase in Mental Health Referrals in Ontario

The most significant surge occurred among seniors 66+. Notably, 29% of patients underscored the significance of low wait times.

Digital Health Executive of the Year Award

Kevin Jones, Senior VP at Strata Canada, received the Digital Health Executive of the Year Award by Digital Health Canada.

UNITED KINGDOM

Cornwall ICS Deployment

Inaugural deployment spanned three Transfer of Care (ToC) Hubs, enhancing seamless ICS-wide care coordination.

East Lancashire Hospitals NHS Trust (ELHT) Go Lives

Introduced eReferral for the Mental Health Liaison team and a digitally enabled Trusted Assessor Document (TAD) and process, streamlining discharge to community services.

Booking and Referral Standard (BaRS) Development

Enables Strata to facilitate direct NHS 111 bookings, improving patient access to essential services.

UNITED STATES

Streamlined Transitions for Strata Send Customers

Customers saw a 30% response time improvement and a 28% reduction in acceptance time, minimizing transition delays.

Launched Smart on FHIR Applications

Strata's SMART on FHIR Apps, embedded within Epic & Cerner EHRs, significantly streamline clinician workflows.

12,000+ Enhanced Post-Acute Provider Listings

Improve Provider Directory reliability for patient searches and optimizes the referral system for improved patient-provider matching.
