STRATA HEALTH UK CASE STUDY
Blackpool Single Point of Discharge (SPoD)

OVERVIEW

Blackpool Teaching Hospitals deployed Strata PathWays™ to help streamline and automate their new Single Point of Discharge (SPoD) service for hospital patients. The integrated solution allows for hospital nursing staff to make a single, simple referral to the SPoD where the patient is reviewed, triaged and signposted into the most appropriate downstream out-of-hospital service.

PROJECT GOALS

- Streamline and automate referral process
- Integrate between the hospital PAS and Strata PathWays
- Reduce DToC and improve patient flow
- Ensure accurate information is captured and transferred at all stages in the process
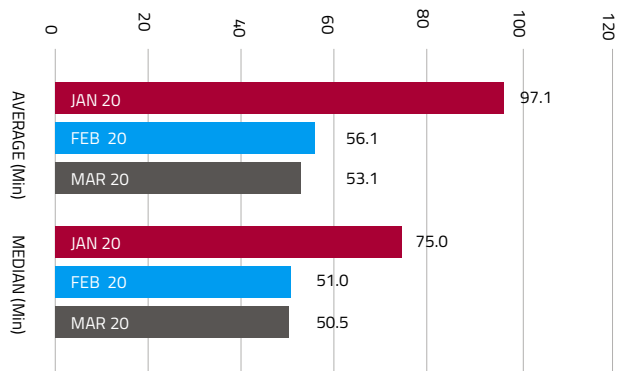

EARLY OUTCOMES

- Reduced rekeying of data between systems
- Improved referral quality and accuracy
- Reduced discharge delays
- Reductions in length of stay in hospital
